2024

Established as a winemaking property in 1790, Château L'Orangerie has maintained a rich winemaking tradition through ten generations of the Icard family. Named after a family tradition of conserving orange trees in a wing of the château during winter months, today Château L'Orangerie sustainably farms 250 acres of vineyards – still surrounded by orange trees. Sitting in the heart of Entre-Deux-Mers, Bordeaux's largest appellation, the vineyards are uniquely situated on a clay-limestone terroir to produce the perfect Cabernet Sauvignon grape that is turned into this brilliant, silky single vinyeard delight.
